PLEASE BE ADVISED:

In the city of Cleveland, **it is illegal to keep your trash cans in the front yard.**

They must be at least behind the front door line and in the rear of the house when possible. Also, **it is illegal to park automobiles in the grass, especially in your front yard!** These are 2 simple things we can do keep Old Brooklyn beautiful.

A Message from Councilman Kris Harsh

Friends and Neighbors,

In my first year on Council I've had a chance to work on a lot of issues that are important to the long term health and viability of Old Brooklyn. None have been as important to me as the door to door housing survey I began in the spring of 2022. **In the first year I was able to survey over 2,500 houses and provide helpful information to hundreds of homeowners. The results of the first year are:**

"I want to work with every homeowner who needs or wants a hand."

every investor in Old Brooklyn to hold themselves to the highest standards of property management. As a community, we will thrive when our housing is well maintained and we will struggle when it is not.

I still have nearly 7,000 parcels to survey so I will be out there again starting in the spring. My hope is that by the time I finish each street in 2025 we will see more investment in Old Brooklyn homes than we have seen in many, many years. Together we can ensure that Old Brooklyn is a great place to grow!

Regards,

Kris Harsh

You might have received one of my letters already! I want to reassure everyone that I am not sending these issues directly to Building and Housing for enforcement. I want to work with every homeowner who needs or wants a hand. However, a majority of these concerns are on the rental housing in our community and I fully expect

DO NOT FEED THE DEER

Feeding deer endangers both their health and your safety. Supplemental feeding of deer may actually decrease its chance of survival. Encouraging deer to congregate in unusually high numbers at a feeding area makes them more vulnerable to predators and at risk for the spread of disease.
