## City Council's Investment in Affordable and Quality Homes

The shortage of affordable and quality homes is not just a Cleveland problem. It's a national problem. But at City Council, we work collaboratively with each other and our residents to address problems like the shortage of homes and much more.

Earlier this year, Council provided a nearly \$10 million grant to the Cuyahoga Land Bank to address the shortage. This grant will help fund the "Legacy Communities Revitalization Program" (LCRP). It will be used to build and renovate homes in Ward 10 in the Collinwood and Glenville neighborhoods, as well as in two other wards in the central city and near-west side.

The \$10 million grant was provided through Federal American Rescue Plan Act (ARPA) funds. City Council is responsible for awarding funds to areas such as affordable and quality homes to help our neighborhoods and residents recover from the COVID-19 pandemic.

The LCRP will be used to:

- Bridge financial gaps to support the construction of affordable housing in the target wards.
- Facilitate cost-effective revitalization of existing structures to expand affordable housing options.
- Strategically acquiring properties to prevent blight and further housing development efforts.
- Implement a pilot program to enhance the visual appeal of neighborhoods within our neighborhood.

As your Councilman, I will continue fighting for and bringing results to every community in Ward 10.

Collectively, Cleveland City Council is excited to lead this strategic investment and initiative, which will spark activities in areas where private market typically does not go. The significant amount of ARPA dollars for stabilizing housing in our neighborhoods through gap financing, home repair, down payment incentives, and other programs leverages money and commitments from private, philanthropic, and not-for-profit partners. The opportunity to collaborate with the Cuyahoga Land Bank presents promising expectations for developing affordable homes in communities that are often overlooked.

## Groton Park Phase Update

SUMMER, 2024

Renovations for this community jewel are in progress! Phase I – which included the demolition of Groton Park for a new play area, new swings, safety surface, benches, and game tables – is complete. Phase II, which will be completed in 2025, will add a dog park to the greens pace. Councilman Hairston is excited to see this \$200,000 investment come to fruition.
